

HomeStyle™ Patty System

*Faster. Tender.
Better ROI.*

Beef up your sales with a uniquely better patty that doesn't require a dedicated line. Choose the shape and patty style you want and get all the speed, portion control and productivity of your Formax® forming system.

The HomeStyle™ Patty System consists of any new or existing Formax® forming machine feeding a HomeStyle™ Conveyor. And the system is flexible enough with a simple mold plate

change to switch from producing a HomeStyle™ Patty to other products on the same line in a matter of minutes. Superior portion control, direct to paper product flow and speed make the HomeStyle™ Patty System right for foodservice, case-ready, pre-cooked, fresh or frozen. Go to www.homestylepatty.com to learn more.

Superior Portion Control • No Dedicated Line • Retrofittable • Excellent Texture

HomeStyle™ Patty System

Now you can create lighter, fluffier homestyle patties with a profitable difference. Our new HomeStyle™ Patty System promises a “fresh from the kitchen quality” with its broken edges and a natural hand-formed texture. Configure your system to produce the patty size, shape and texture that your customers desire.

Installation Dimensions Inches and Metric

The HomeStyle™ Patty System is available for all Formax® forming machines. Contact Formax® for installation dimensions of machines not shown.
